

Winner Spl

Economical White Ink. An electrifying White Ink for fast and soft(Khadi) printing on Polyester, Nylon, Acrylic, Silk, Cellulosic and blended fabrics.

APPLICATION

Preparation of printing (Khadi) paste for all types of fabrics

WINNER SPL	96 kilograms
Fixcer CCL or Excellent 100	4 kilograms
	100 kilograms

(Add at the time of printing only) Mix well and filter

PRINT → DRY → CURE at 150 degree celsius for 4 to 5 minutes.

NOTE

1. Use urea or Glycerin I to 2% to avoid chocking
2. Use 100 mesh Polyester bolting cloth for screen printing.
3. Always take small trial of printing on every new lot of fabric. Get it cured properly and then check dry rubbing and wet rubbing fastness. Further go to bulk printing.

The information and our technical advice - whether verbal, in writing or by way of trials - are given in good faith but without warranty, and are based on our current knowledge and experience. In view of the many factors that may affect processing/printing and application of our product, these data do not relieve processors/printers from carrying out their own investigations and tests; neither do these data imply any guarantee of certain properties, nor the suitability of the product for a specific purpose. Any descriptions, drawings, photographs, data, proportions, weights etc. given herein may change without prior information and do not constitute the agreed contractual quality of the product.

Our advice does not release you from the obligation to check its validity and to test our products as to their suitability for the intended processes and uses. The application, use and processing of our products and the products manufactured by you on the basis of our technical advice are beyond our control and, therefore, entirely your own responsibility.

It is the responsibility of the recipient of our products to ensure that any proprietary rights and existing laws and legislation are observed.
